

Fire-Shield Briefcase

with Arcolock-7®

Designed to protect your original documents and valuables in the event of a fire.

Guards against fire damage until the contents can be safely retrieved.

Fire-Resistant:

- Consult your insurance carrier for possible reduction in your annual premiums.
- Laboratory tested to withstand high temperatures typical of automobile fires. Test results available upon request.
- Tough, durable multi-layer construction includes carbonized inner liner that quickly snuffs flames.
- Fire-resistant Nomex® Zipper Tape, developed for heat resistance along the zipper length.
- Arcolock-7® is shielded by a fire barrier-lined flap.

Secure: For the secure transport of coin, currency, checks, valuables and sensitive materials.

- High security, tamper-resistant, patented Arcolock-7® is virtually pickproof with its seven pin tumbler mechanism.
- Tamper-resistant, metal, close-tolerance zipper.

Convenient:

- Plastic molded handles for carrying ease.

Application Center

	Federal Regulation	Security Theft Issues	Privacy / Confidentiality Concerns	Security Audit Concerns
Confidential Documents	√	√	√	√
Bag-In-Bag/ "Dual Lock"	√	√	√	√

Bag-In-Bag or Dual Lock Suggestions:

- Match a 12" x 16" Rifkin Safety Sac® as an inner bag with the Fire-Shield Briefcase as the outer bag.

Accessories:

- Customized keying system for Genuine Rifkin security and dependability.

Identification:

- Framed Window Name Plate allows individual identification to be added to each bag which can then be changed as needed.
- Silk-Screen Imprinting or Embroidery for long-lasting identification.
