SECURITY IS IN THE BAG

A. RIFKIN CO. ~ Manufacturing in the USA Since 1892

For over 80 years, we've offered the best security available for your money and valuables.

Our representatives are trained as security consultants and would be pleased to discuss the bag and/or keying system which best meets the security needs of your operation. Please contact our Customer Service Department to arrange for a security consultation today.

Tell us about the item to be carried or protected and give us some information about your operation or system, and we will suggest a specific style or design a new style especially for you.

If you do not see what you are looking for in this catalog, contact our Customer Service Department to discuss a special bag design
800-458-7300

YOU DESCRIBE:
- your operation or system needs
- your product add-on needs
- your recognition program needs
- your sales/marketing/promotion needs

WE PROVIDE:
- over 120 years of sewing and custom design experience
- silk screen imprint or embroidery
- custom-manufactured products designed especially for you!

Sometimes… all we need is your idea!

Customized Security Options

The following guide details four different security options for your transport bags. Understanding your security options is the first step to preventing loss. Not all transport bags are created equal. Depending on your application and security requirements, there are multiple zipper and closure combinations from which you can choose. Security features range from simple cosmetic deterrents to complex dual-control locking systems. It is important to choose the appropriate security level in comparison to your perceived threat risk.

BASIC SEAL
for non-confidential transport. Utilizes a uniquely numbered pull seal to attach identification tag. Security is primarily cosmetic but will deter the casual *"wandering eye."*

HOOD SEAL
A good system for transport of semi-confidential material. This closure option incorporates a hood over the zipper pull which is then secured using a numbered pull seal. Hood seals can be added to any non-lock zipper bags that use a nylon or 10mm brass zipper.

### KEYLESS SECURITY™ SEAL TAMPER-EVIDENT PROTECTION
A high security option for sensitive material transport and storage. Incorporates a close tolerance metal zipper and the patented Tebco BT chamber/lock into one highly tamper-evident bag. The zipper is virtually impossible to reseal once opened and the slider is fully enclosed to prevent tampering.

ARCOLOCK-7® LOCKING BAG
Ideal for transporting currency and valuables. The patented Arcolock-7® is extremely difficult for the professional thief to compromise and the close tolerance metal zipper is next to impossible to reseal if opened.

Zipper Options
NYLON ZIPPER
Made of a solid coil. Advantageous in high volume operations where bag handling ease is crucial. Not recommended for high security applications.

10MM BRASS ZIPPER
Extra strength and smooth operation. Standard on Rifkin Heavy-Duty Courier Bags and Fireshield Courier Bags.

CLOSE TOLERANCE BRASS ZIPPER
A security zipper style standard on Rifkin bags with Keyless Security™. A combination of smoother operating brass and close tolerance construction.

CLOSE TOLERANCE NICKEL ZIPPER
Standard on Rifkin Safety Sacs®. The combination of hard metal (nickel) with close tolerance construction makes this the most secure zipper on the market.

What is a close tolerance zipper?
Zippers are called close tolerance due to the number of teeth per inch and the pitch or angle of these teeth. The benefits: difficult to pop open to gain access; virtually impossible to put back together, thus showing evidence of tampering.

ARCOLOCK-7® SECURITY
Keyed Locking Bags

Made exclusively for A. Rifkin Co., our seven-pin tumbler lock mechanism makes our secure transport bags the most reliable on the market when high security is required. All Arcolock-7® bags, except LCX bags, come standard with two keys that are factory sealed in a polyethylene envelope to provide security for the key system until the bags are used. Our lock safety feature prevents the key from being removed while the lock is in the open position, making it impossible to accidentally lock your key inside the bag. Widely used by banks and government agencies, Arcolock-7® bags feature four available keying options*, or an LCX keyless option, with up to 3,000 independent key changes with no interchanges, and up to 2,000 master-key combinations in each series.
all bags are keyed differently unless otherwise specified.
U.S. Patent No.
3759073 and 5065602

## Keyed Differently (included in Sac price)

Keyed differently, each bag has its own key, different from all others, with no interchanges.

YY2001 YY2002 YY2003 YY2004 YY2005

Keyed Alike (included in Sac price)

When Arcolock-7's are keyed alike, a single key pattern ("bitting") allows all key holders to open every bag in the system.

YY1000 YY1000 YY1000 YY1000 YY1000

Master-Keyed (additional cost per Sac)

In master-keyed systems, each bag has its own key which is independent of other locks in the system. However, a single key opens all locks in that system.

MKSG SG4001 SG4002 SG4003 SG4004 SG4005 SG4006 SG4007
Keyed Alike Sets with Master Key (additional cost per Sac)

Keyed alike sets are also available with a master key which will open each bag in all sets.

MKSA SA5001 SA5001 SA5001   SA5002 SA5002 SA5002   SA5003 SA5003 SA5003
LCX Key System (additional cost per Sac)

For applications where individual bag users do not receive keys. In "Keyless" LCX systems, bags are issued unlocked with a leather insert strip secured around the plunger head to prevent accidental locking. Once filled, the user simply removes the strip, closes the zipper and depresses the plunger. The bag is then securely locked. This enables a single authorized keyholder to open all bags in the system without any other bag users requiring a key. It also allows any bag to be sent to any user, simplifying the redistribution process. Two keys to operate all locks in the system are provided for each new LCX bag series.
LCX demo video available at:
http://www.arifkin.com/solutions7.php

ZZ0001

Emergency Key Replacement Service

Replacement keys are forwarded within 48 hours in cases of emergency. Large quantity key orders may take longer. (Please specify key number which is stamped on key and base of lock.)

KEYLESS SECURITY™
Patented Rifkin Exclusive!

Rifkin Keyless Security™ bags use uniquely numbered, single-use seals and a patented zipper chamber to provide documented evidence that the contents of the bag remain secure during storage and transport. All bags equipped with Rifkin's Keyless Security™ option provide clear evidence if the bag's contents have been compromised. The very presence of the Keyless Security™ chamber keeps most would-be "snoops" looking for an easier target.

To Secure The Bag
• Insert all materials to be transported into the Keyless Security™ Bag.
• Fill in date, delivery location, and seal number on provided routing card. Insert card into the clear window which is accessible only through the interior of the pouch.
• Pull the zipper completely closed. Hold chamber lid at a 45° angle, push back and down until it snaps into place.
• To lock, insert seal's twin arrowheads into the two small rectangular openings and push until they click into place.

U.S. Patent No. 6533335

To Open The Bag
• Verify that the seal number matches the documented number on the routing card. Confirm the seal has not been broken or tampered with during transport.
• To open, utilizing the indent under the red seal, lift seal until it breaks. Then using the second indentation, lift up the chamber lid, unzip bag. Make sure all seal pieces are removed. Remove contents and reuse pouch.

U.S. Patent No. 6533335

Demonstration video available on our website:
http://www.arifkin.com/keylessvideo

DISCREET COURIER BAG with INNER SECURITY POUCH

Discreet protection for transporting your most valuable documents. The outer bag looks like an everyday, normal bag that isn't carrying anything important, but inside is a hidden locking bag to protect your items. Inner security bag is available in both locking and Keyless Security™ closures.

PRODUCT SPECS:

Outer Bag:
• Nylon zipper in clamshell design
• Convenient webbing handles
• Brush foam Cordura® material cushions contents
• Durable black webbing handles and adjustable shoulder strap
• Full length pockets on each side

Inner Bag:
• Arcolock-7® security ~OR~ Keyless Security™ closure
• 10mm brass zipper across the top
• Durable Arco 600™ material
• Side stiffeners keep bag upright
• Bottom panel sewn into outer bag
• Keying options shown on page 3
• Seals sold separately

COMMON USAGE:

• Discreet transport of confidential documents
• Discreet protection for material traveling by courier
• Bag-in-bag secure transport

RF SHIELDING BAG with Keyless Security™

Introducing our new line of discreet bags and pouches with RF Shielding to protect mobile devices and electronic equipment. Our RF Shielding technology prevents unwanted RF signals from escaping or entering the pouch and it shields devices against wiping and hacking. These new RF Shielding products combined with the leading security bags in the industry, offer high security for mobile devices and electronic equipment that fall under the classified, confidential, SCI and SAP Government regulations during transport, storage and chain of custody applications.

Our RF Shielding designed bag and pouch are unique and a state-of-the-art concept offering leading edge technology for Faraday bag requirements.

NEW

FREE One Color/One Side Imprint for quantities of 25+ bags.

PRODUCT SPECS:
- Keyless Security™ Chamber Technology
- 10mm Brass zipper across top
- Double lining of RF Shielding material
- Double layer of hook and loop ensures tight RF seal
- Compatible with Keyless Security™ seals (sold separately)

HEAVY-DUTY COURIER BAG with Arcolock-7®

Our most durable courier bag; built to withstand the wear and tear commonly associated with courier service transit by fortifying all of the known "weak points" that compromise the lifespan of a bag. Equipped with the most secure lock in the industry, this bag is the ideal option for large deliveries of confidential documents, currency, and valuables.

PRODUCT SPECS:
- Arcolock-7® security
- 10mm Brass zipper across top
- ArcoShield™ heavy duty, metal zipper stop
- Triple stitched seams
- Brown webbing handles secured with metal rivets
- Reinforced top and bottom panels with metal feet on bottom protect against wear.
    - Cordura® panels on Cordura® bags; all others use Vina-Hide™ panels (brown)
- HIPAA compliant
- Fire-Shield bag and separate liner shown on page 10.
- Keying options shown on page 3.

COMMON USAGE:
To Transport and Store:
- Coins, currency, and checks in bulk
- Stacks of confidential documents
- Sensitive material in binders
- Medical documents
- Other large valuables

If no identification is specified, Twin Window will be included. See page 27 for details.
Brown is default trim color for window and lock.

HOW COURIER STYLES ARE MEASURED:
NOTE: The dimensions Length (L) and Width (W) must be measured only at the bottom of the bag. The top of the bag equals length plus width.

FIRE-SHIELD™ COURIER BAGS with Arcolock-7®

Our Fire-Shield™ courier bags are offered in 3 styles: Heavy-Duty Courier, Briefcase-Style, and Sport-Style Briefcase. The Fire-Shield™ bags are built with the same strength and durability as our standard courier bags, but with the added protection of a fire-resistant lining and zipper flap. Encased in its multilayer walls is a fire barrier core that carbonizes when exposed to intense heat or flame, eliminating any oxygen within the fabric, in order to keep contents protected. Laboratory tests showed this bag can withstand the high temperatures typical of vehicle fires.

PRODUCT SPECS:
- Arcolock-7® security
- 10mm Brass zipper across top (and side for briefcase)
- Fire-Shield™ lining and full flap to protect lock/zipper
- Fire-resistant, Nomex® zipper tape
- Multilayer construction
  - Traditional, durable outer fabric layer
  - Carbon, fire-resistant middle liner
  - 70-denier, abrasion-resistant nylon inner layer
- Triple stitched seams
- Convenient carry handles:
  - Webbing handles secured with metal rivets for Heavy-Duty bag. Without rivets for Sport-Style bag.
  - Molded for Briefcase bag.
- Reinforced top and bottom panels with metal feet on bottom protects against wear.
  - *Cordura® panels on Cordura® bags.*
  - *Brown, Vina-Hide™ panels on ArcoDuck™ II.*
- HIPAA compliant
- Keying options shown on page 3
- Additional Fire-Shield™ liner options for enhanced fire protection available upon request for an additional cost.
  - Built-in, double liner
  - Separate liner bag
HOW COURIER STYLES ARE MEASURED:
NOTE: The dimensions Length (L) and Width (W) must be measured only at the bottom of the bag. The top of the bag equals length plus width.

Brown is default trim color for window and handles for heavy duty courier.
Black is default trim color for handles and lock trim for briefcase and sport style courier.

COMMON USAGE:
To Transport and Store:
- Original documents
- Valuable data
- Cash and checks
- Documents traveling by car, truck, or airplane
- Bag-in-bag secure transport (outer bag)
  - For extra sensitive items that require dual lock protection *(inner bags sold separately, see pg 8)*

Sport-style alternative to disguise the fact that you are carrying valuable documents.

Sport-style includes ID Window to hold 2" x 3" business card

ARCOLOCK-7® SECURITY

THE RIFKIN SAFETY SAC® with Arcolock-7®

Our most popular security bag with built-in Arcolock-7® is ideal for storing and transporting coins, currency, and valuable documents. Many businesses, including banks, stores, hotels, schools, notaries, restaurants, delivery services, government offices, and theaters, choose Rifkin Safety Sacs for their internal cash and document protection. This reusable bag is a better choice for the environmentally conscious consumer than disposable plastic bags, and it has the durability to withstand hundreds of night deposit trips.
Also available in briefcase style with a convenient carry handle.

PRODUCT SPECS:
- Arcolock-7® security
- Close tolerance nickel zipper on top and side
- Triple stitched seams
- Briefcase style available with convenient molded handles
- Keying options shown on page 3
- Fire-Shield Briefcase option shown on page 7

COMMON USAGE:
- Transport and storage of coins, currency, checks, and confidential documents
- Bag-in-bag secure transport
  - For transport of extra sensitive items that require dual lock protection, place this bag inside another Safety Sac® or briefcase style courier
  - Inner and Outer bags sold separately.
    - Outer bag must be at least 2" x 2" larger than inner bag
- HIPAA Compliant transport and storage of paperwork

To accommodate a letter-sized document without folding, choose size 12"x16" or larger.

INTEROFFICE POUCH with Keyless Security™

Designed to improve upon the familiar manila interoffice envelope, this durable bag is equipped with at-a-glance proof of tampering, holds five times the capacity of a standard transport envelope, and can be reused over a thousand times, which will save you money in the long run vs. buying disposable paper envelopes.

PRODUCT SPECS:
- Keyless Security™ Chamber Technology
- Close tolerance brass zipper
- (1) 11" x 4.25" routing card included with access only from inside of bag
- **B00170** has full 2" gusset
- **B05870-C6S-8237** is pre-printed *(as shown)*
- HIPAA compliant
- Keyless Security™ Seals sold separately.

COMMON USAGE:
- Interoffice mail
- Transport of confidential documents
- Document routing throughout departments
- Secure delivery of sensitive documents left overnight

FREE One Color/One Side Imprint for quantities of 25+ bags.

DOCUMENT SECURITY BAGS

SECUR-A-FILE™ with Keyless Security™

Designed to fit inside legal-size file cabinets, this heavy-duty bag enables sensitive and non-sensitive paperwork to be stored in the same file cabinet drawers. By placing confidential paperwork into the Secur-a-File™ and inserting the numbered, one-time-use seal into the chamber, these documents are now secure until seal is broken, revealing at-a-glance proof of tampering. All other paperwork can be stored in the same drawer without the risk of prying eyes peering into the sensitive folders stored within the bag, making this an efficient choice for businesses that do not have enough sensitive files to require having a separate filing cabinet.

PRODUCT SPECS:
- Keyless Security™ Chamber Technology
- Close tolerance nickel zipper across top and side
- Heavy-duty coated suspension rods for hanging
- Seam-piping system
- Fits in legal-size file cabinets
- HIPAA compliant
- Compatible with Keyless Security™ Seals (sold separately)

COMMON USAGE:
- Storing confidential documents
- Storing anything of value within a file cabinet
- HIPAA-compliant document storage

*Code 128 bar coding

Residue-Free
Easy to apply; easy to remove
Tamper-evident protection for:
• laptops & IT equipment
• desk and file cabinet drawers
• utility meters
• cash boxes

Sold in Rolls of 250	
Catalog ID	Description
S93310-08	1" x 3" Blue Label

Arco ID™ labels are self-adhesive and designed for surface mounting applications. Labels leave no trace of adhesive residue behind on the sealing surface. A hidden "void/open" message is clearly visible when any part of the label is lifted--unauthorized opening can be detected at a glance. Arco ID™ labels are heat and freeze resistant. The hidden message triggers when anyone attempts to peel or remove the label, even if an attempt has been made to compromise the adhesive with a heat source or Freon®. Labels have been tested for more than 1 year on metal, plastic and glass. For best results on textured surfaces, allow 5-10 minutes for label to bond.

FRAMED WINDOWS

ID windows can be added to most bags, and can be used alone or in addition to imprinted or embroidered identification. All added windows will have a framed border with outer-access to the ID card. (If inner access required, please call customer service to discuss custom bags.)

TWIN WINDOW

For tracking purposes, a twin window can be added to most bags. We can create a custom label with ID and numbering information to prepare the bags for computerized inventory control systems or tracking programs. You may specify up to two lines of copy and one line of numbering, which can be a continuation of a previous order's number sequence, and which also includes the 3 of 9 bar code equivalent. (Max. 30 characters per line for copy). All windows with custom ID labels are sewn shut, while the other part of the window without the label is accessible from the outside of the bag.

Catalog ID	Description

HOOD SEALS

A hood may be added to the closure system of any Trans-Sac® or non-locking, zipper bags that use a nylon or 10mm brass zipper for an extra layer of security. Designed for use with plastic seals or mini padlock *(sold separately on page 16.)*

HOOD SEALS
U.S. Patent #4,661,990

EXPANDABLE HOOD SEALS
U.S. Patent #4,660,874

*Black is standard color for all hood seals

ROUTING CARDS

Fits in the Inter-Office Pouch window, or for use as an insert for all bags equipped with Keyless Security™ chamber technology. This double-sided routing card has a column for the date, the intended recipient, and the number of the seal which was used to secure the bag. These cards enable you to know which seal was put on the bag by the sender to ensure that no one else tampered with the contents before it reached the intended recipient.

Catalog ID	Description
S92600-50	Pack of 50 Double-Sided, Inter Office Routing Cards

ARCOTRACK™ PRO
Discreet, Reliable, Accurate, and Affordable

ArcoTrack™Pro GPRS/GSM device is a completely self-contained and weather-resistant GPS Tracking device, small enough to fit in the palm of your hand. When placed in bags, vehicles, packages or carried by a courier or driver, the ArcoTrack™Pro GPRS/GSM device provides detailed reports of routes traveled for quality control, asset management and security purposes. ArcoTrack™Pro offers two tracking methods--via the web from your PC or from the convenience of your cell phone--which keeps tracking data at your command. Runs on high-capacity, rechargeable batteries.

Featuring a highly-reliable uBlox 6 GPS Chipset and 50-channel all-in-view tracking technology for extra-sensitive reception outdoors, indoors and through metal. Our WAAS-enabled receiver provides GPS signal corrections, giving better position accuracy. How much better? On average up to five times better! A WAAS-capable receiver can give you a position accuracy within 3 meters 95 percent of the time. ArcoTrack™Pro GPRS/GSM device provides real-time navigation in urban canyons and has high sensitivity acquisition needed for indoor use.

ONLY 2.65" X 1.6" X 0.83"

LIGHTWEIGHT: ONLY 0.13 LBS.

Data plan required. Please contact our Customer Service Department for an analysis of the data plan that best meets your needs. Annual Web Licensing Fee

CUTTING EDGE MAPPING TECHNOLOGIES

ArcoTrack™Pro uses the latest, cutting edge mapping technologies from Virtual Earth. This state-of-the-art combination of 3D maps, satellite images, and aerial photography covers the entire planet. Users can print out reports containing street addresses. Mapping goes down to street level and can pinpoint physical locations virtually anywhere.

CASHTRACK™
...Making Recovery a Reality!

Advanced Satellite Tracking for Currency Recovery

The Complete CashTrack™ system:

Covertly disguised GPS tracking device

Magnetic Cash Drawer Insert

Comprehensive web-based tracking interface

Watch a Video Demonstration
www.arifkin.com/cashtrack

Unique features:

- Ready to use as soon as it arrives
- Real-time tracking in 15-second intervals
- Automated e-mail and phone notifications in the event of a breach
- Advanced 3-D and aerial view mapping for real-time and historical tracking
- It works outdoors, inside buildings and even through metal*

*Actual performance and tracking accuracy may vary based on environmental and geographic factors including satellite positioning, cell tower location, signal clarity and radio frequency interference.

CatID -- M74215-01

All Plans require 4 year initial contract, and a renewal contract for every 2 years thereafter.
2 Year Limited Warranty.
Please Note: For authenticity, real $10 bills are used for the top and bottom of each unit.

How it works:

CashTrack™ is positioned on top of the magnetic plate in a cash drawer.

If no robbery is attempted during the shift, the cash drawer is typically returned to a secure centralized vault.*

This process can be repeated for 24 months without ever servicing the CashTrack™ GPS device.

In the event of a robbery, all currency as well as the covert CashTrack™ unit are given to the thief. Once the CashTrack™ GPS leaves the magnetic cash drawer insert, the unit will automatically send multiple email or text messages alerting to the security breach.

The CashTrack™ system begins to transmit and record detailed location reports at programmable intervals down to every 15 seconds. This real-time tracking can instantly be viewed through any web enabled computer or mobile device.

PLEASE NOTE: If you need a special size seal or one with custom identification, such as your company name or logo, please contact our Customer Service Department. These items are available on a special order basis.

KEYLESS SECURITY™ MINI PADLOCK

You have the right to know if your property has been opened!
Standard padlock keys and combinations can be stolen but there is no way to open a Rifkin Mini Padlock without leaving evidence that the contents have been breached. A broken, missing or different numbered seal indicates that your property was opened.

- No keys to lose
- No combinations to remember
- Seals sold separately

Minimum 5
Catalog ID
S92159-99

US Patent No. 7,988,209

Seals sold separately.

MEGA TWISTER SECURITY SEALS

Ideal for applications with very small openings.
The Mega Twister is a high-quality and cost-efficient sealing solution. Heat staking technology is used to permanently fix the twister in the seal body. This technology will leave clear evidence of tampering if the seal is cut or forced open. Mega Twister seals are etched with permanent laser marking.

Sold in lots of 100

Color number indicates specific material and color combination. Note: It is not always possible to duplicate fabric shades exactly. Actual fabric colors may vary slightly. Fabric sample swatches available on request. Please contact us to discuss your needs if you do not see the color or fabric which matches your needs.

CUSTOMIZATION & SHIPPING OPTIONS

CUSTOM EMBROIDERY

The best method to identify night deposit and courier bags. Guaranteed to be permanent and always legible, the embroidery will not wear off for the life of the bag. Call for information about custom embroidery of logos and special designs.
Embroidered identification is **FREE** on all bags with Arcolock-7®, and when specified for other bags. All other bags may be embroidered for an additional charge per bag, except for bags made of Nylon, Leatherette, or 10 oz. Duck which may be imprinted only.

Color options shown on page 17.

CUSTOM SILK SCREEN IMPRINTING

Use your imagination for a new design or proudly display your corporate identity. Your imprint may include department/business name, address, and slogan. Perhaps you may wish to include your logo, customized lettering, mascot, emblem or promotional message. We silk-screen imprint many of our bags in the following standard colors, or you can provide us with the PMS number of the color you would like.
A 1 color/1 side imprint is **FREE** when you purchase 25 or more bags with Arcolock-7® or Keyless Security™, or when you order 250 or more of a non-locking bag.

Color options shown on page 17.

GUIDELINES FOR SUBMITTING ARTWORK

The preferred format for submitting electronic art is **Adobe Illustrator CS6**® in vector format with the following extensions: .ai, .eps, .or pdf (preserve illustrator capabilities - Do NOT compress). For a detailed explanation of this format and other acceptable files, please see the **Rifkin Digital Art Guide**, found on our web site. Full color proof (in PDF format) will be emailed to the customer for final approval prior to imprinting.

EXPEDITED SHIPPING OPTIONS

STOCK
We do maintain a limited stock of our more popular items for prompt shipment to our customers. Normal shipment of all Stock Bags shown on page 13 will be 3 days from receipt of order.

CUSTOM EXPRESS*
We know that when you're in a hurry, you still may want to match your special bag color or add your company identification. When you discover at the last minute that something essential hasn't been ordered, ask us about our Custom Express service.
You may be surprised to find that we can ship:
• Any **embroidered bag** within **one week** of the date your order is placed.
• Any **imprinted or embroidered bag** within **two weeks** of the date your order is placed.

 *NOTE: This service does not apply if we must develop a new bag pattern before manufacturing. If you have any questions about our Quick Ship Policy or our Custom Express options, please contact our Customer Service Department at 800-458-7300.

STOCK EXPRESS
For emergency situations, shipment within 24 hours from receipt of order will be arranged. When 24-hour shipment is required, please mark your order **"EXPRESS"** or tell our Customer Service personnel. There will be a 10% upcharge for this service. (We reserve the right to limit quantities available under this guarantee.)

QUICK SHIP POLICY
Any bag, any style, one week. Any plain Rifkin bag (any style, fabric, color) from this Catalog can be ordered to be shipped in one week for a 10% upcharge on the appropriate quantity Catalog price. We consider a bag to be plain if it has no imprint or embroidery. Bags with any of the standard windows shown on page 14 also qualify for this program, but the cost of the window will be added to the unit price of the bag. If the bag you require shows quantity breaks beginning at 10, the minimum order requirement of 10 bags per style still applies. Some quantity restrictions may apply.

All Stock Bag shipments (Normal or Express), Quick Ship or Custom Express shipments will be via UPS Ground unless otherwise specified.

Contact your local sales representative or our Customer Service Department to discuss any of these expedited shipping options, the specific pricing, minimums and quantity limitations that apply.

TERMS & POLICIES

TERMS
Net 10 Days, F.O.B. Shipping Point

GSA Contract
#GS-14F-1219H

POLICIES

RIFKIN BAG PRODUCTS
Custom Manufactured Bags.

To qualify for quantity pricing, bags must be identical in material and color and they must have identical imprinting or embroidery. Styles may not be combined for quantity pricing. For multiple colors, color assortment charges may apply.

Every effort will be made to ship the exact quantity of a printed order. Standard industry practice for printed products, however, provides a manufacturing allowance of +/- 3% of the quantity ordered. It is our policy to ship and invoice all finished products to the customer.

RIFKIN STOCK BAGS
Shown on page 13.

We maintain an inventory of only those specific styles, sizes, fabrics and colors listed. All other bags are custom-manufactured to order and may not be returned. When Stock Bags are returned, a 15% re-stocking charge applies.

RIFKIN CASH MANAGEMENT PRODUCTS
Includes all non-bag products.

You must be completely satisfied with the items purchased, or we will exchange the item, refund the purchase price or credit your account, as you wish. This policy applies provided the merchandise is returned within 30 days of receipt in re-sale condition.

A re-stocking charge may apply. Please note that any merchandise made to special order, and those items which are printed or engraved to your specifications are exempt from this guarantee.

RETURN POLICY
Applies to non-bag products and stock bags.

If you need to return an item, a return authorization is required. A re-stocking charge may apply. Please contact our Customer Service Department at 800-458-7300 for assistance. Return merchandise should be shipped to:

A. Rifkin Co., 1400 Sans Souci Parkway, Wilkes-Barre, PA 18706

OUR GUARANTEE
We are dedicated to providing you, our customers, with high quality products. We guarantee that the materials and workmanship used for each of our products will be of excellent quality and that they will serve to the satisfaction of our customers.

All orders are subject to the approval of Rifkin and are not binding until accepted by Rifkin.
Rifkin reserves the right to refuse any order at any time. All orders are subject to availability of materials and component parts and Rifkin shall not be liable for inability to ship any order(s) due to material or parts shortages.

NEW ACCOUNTS
We will approve and process immediately all orders from customers with a satisfactory credit rating from D&B. We require payment by credit card or check prior to processing orders from all other customers. If you are not listed in D&B or wish to establish an open account with our company, please contact Customer Service at 800-458-7300 to request a credit application.

REPAIR SERVICE
We offer a repair service for our security bags which contain an Arcolock-7® or Keyless Security™ closure. Bags are evaluated when we receive them to determine the cost of repair. Please note that we have a minimum repair charge and if the cost exceeds half the price of a replacement bag, the bag does not qualify for repair service. In these cases, you will be notified by Customer Service regarding your options.

Please contact our Customer Service Department for information about how to obtain a repair estimate. Freight charges are the responsibility of the customer.

TO OUR CUSTOMERS

In 1892, when our family established A. Rifkin Company, they adopted a sound philosophy: To provide good service and a quality product at a fair price. These precepts have continued as our guidelines through the years and remain so today.

We appreciate the confidence in us expressed by the more than 30,000 banks, industrial concerns and other businesses who use our specialized custom-made products. Our company is dedicated to serving their needs … and we welcome every opportunity to do so.
