SECURITY IS IN THE BAG

REUSABLE FABRIC SECURITY BAGS FOR EDUCATIONAL INSTITUTIONS OF ALL LEVELS

Whether you work in the library, nurse's office, laboratory, administrative offices, athletics department, mailroom, or as a teacher, you handle personal student information, money, or confidential documents on a daily basis. The unauthorized disclosure of any information contained in these documents could have significant negative consequences. The threat of substantial HIPAA or FERPA fines and the theft of fundraising money or personal property are always a risk in schools and on college campuses.

The products in this catalog have been developed to dramatically improve security and efficiency throughout all departments of an educational facility. As the world's leading manufacturer of reusable locking and Keyless Security™ bags, our products are trusted by over 30,000 customers, including the federal government, Fortune 500 companies, medical facilities, libraries, and most of the world's largest financial institutions. For over 75 years, we've offered the best security available for your money and valuables.

Our representatives are trained as security consultants and would be pleased to discuss the bag and/or keying system which best meets the security needs of your operation. Please contact our Customer Service Department to arrange for a security consultation today. The following guide details four different security options for your transport bags. Understanding your security options is the first step to preventing loss.

Customized Security Options

BASIC SEAL

Ideal for non-confidential transport. Utilizes a uniquely numbered pull seal to attach identification tag. Security is primarily cosmetic but will deter the casual "wandering eye."

HOOD SEAL

A good system for transport of semi-confidential material. This closure option incorporates a hood over the zipper pull which is then secured using a numbered pull seal. Hood seals can be added to any non-lock zipper bags that use a nylon or 10mm brass zipper.

KEYLESS SECURITY™ SEAL TAMPER-EVIDENT PROTECTION

A high security option for sensitive material transport and storage. Incorporates a close tolerance metal zipper and the patented Tebco BT chamber/lock into one highly tamper-evident bag. The zipper is virtually impossible to reseal once opened and the slider is fully enclosed to prevent tampering.

*Detailed information on page 15.

ARCOLOCK-7® LOCKING BAG

Ideal for transporting currency and valuables. The patented Arcolock-7® is extremely difficult for the professional thief to compromise and the close tolerance metal zipper is next to impossible to reseal if breached.

*Detailed information on page 15.

Zippers

Based on your security requirement, several zipper options are available for custom manufactured bags. See the chart to the right or call Customer Service for more information.

Personalization

Most Rifkin fabric bags can be personalized to your exact specifications. We offer screen printing, custom embroidery, and many sizes of windows.

Locking Laptop Backpack

COMMON USAGE:

- Students can use the locking section to protect their laptops and any other paperwork stored in this compartment.
- Faculty and Administrators who prefer a backpack to a regular locking briefcase.

Having theft problems on your campus? Our locking backpack looks like a regular backpack, but is equipped with a hidden laptop compartment that is secured with our patented Arcolock-7®.

Size (HxLxW): 21"x17"x4.25" (#B20030-Z50-4004)

Material: Black Cordura® Plus

Custom embroidery available upon request.

Velcro panel hides zipper and lock of hidden section, which has a cushioned laptop compartment.

Locking Rifkin Safety Sac®

COMMON USAGE:

- Cash collection for cafeterias, fundraisers, athletic events, and bookstores.
- Medication transport and storage for school nurses
- Notary ledger and tools storage
- Transport and storage of documents and valuables

Our most popular security bag with built-in Arcolock-7®. This reusable bag is much lighter than a cash box for easy transport to and from events.

Our special LCX lock is ideal for instances where the users are not issued a key, such as students bringing in medication or collecting money for fundraisers. See page 15 for details about LCX.

Bags can be embroidered or imprinted for identification of departments, school district, team name, etc.

Custom sizes, materials, embroidery, windows, and security closures available upon request.

HIPAA compliant
security bags

*Brown is default trim color.

To accommodate a letter-sized document without folding, choose size 12"x16" or larger.

Heavy-Duty Locking Bag

COMMON USAGE:

- Transporting large amounts of money, paperwork, or valuable supplies
- Vinyl-side option: transport non-confidential paperwork or books while allowing others to see the bag contains no cash

Our most durable courier bag; built to withstand the wear and tear commonly associated with courier service transit by fortifying all of the known "weak points" that compromise the lifespan of a bag. Equipped with the most secure lock in the industry. For identification, these bags may be embroidered or imprinted. If no identification is specified, a Twin Window will be supplied.

Our clear-sided option is ideal for transporting large deliveries of paperwork or books without onlookers thinking they may be carrying cash or other valuables. It is also easy to see that all contents have been completely emptied from the bag.

Custom sizes, materials, embroidery, windows, and security closures available upon request.

Popular Materials: ArcoDuck™ II, Cordura® Plus

Locking Director's Portfolio

COMMON USAGE:

- Personal portfolio for paperwork, pens, business cards, and tablets

Lockable portfolio to keep wandering eyes out of your private business. Ideal for use by all personnel who handle sensitive information, including administrative officials, teachers, counselors, security officers, and many others. Equipped with convenient inner pockets, a removable 3-ring binder insert, and an outer carry handle along the spine.

Size (HxLxW): 16"x12"x2.5" (#B15005-Z10-SL04)

FIRESHIELD Locking Bags

COMMON USAGE:

- Portable emergency transport safe in the event of a fire or threat to the building
- Storing and transporting original copies of contracts, paperwork, or other irreplaceable documents
- Transporting items of value that may be traveling by automobile

Built with a fire-resistant lining, these bags have been laboratory tested to withstand the high temperatures commonly associated with vehicular fires. Ideal for securely transporting or storing large volume of papers, currency, student medication, equipment, or other valuables that may be irreplaceable in the event of a fire.

Custom sizes, embroidery, windows, and security closures available upon request.

Keyless Security™ Document Protection

Interdepartment Mail & Document Pouch with Keyless Security™

COMMON USAGE:

- Tamper-evident protection for interoffice mail
- Transport of confidential employee and student information including transcripts, personal information, and medical records
- Secure delivery of documents left within a mailbox or in a desktop inbox

Multi-purpose
HIPAA compliant
security bags

The perfect solution for securely transporting mail, student information and medical records, exams and papers, and any other private documents. Once the bag is sealed, it cannot be opened without leaving a clear sign that the contents have been compromised.

- Five times the capacity of standard transport envelopes
- Reuse over a thousand times — durable, water-resistant fabric construction
- Double-sided 11" x 4.25" routing card included in inside-access-only window. (10x12 bag has window for 3" x 5" card)

Custom sizes, materials, imprinting, windows, and security closures available upon request.

Secur-A-File™ ~ File cabinet security

COMMON USAGE:

- Storing confidential documents within a file cabinet or hanging file drawer, including:
 - Student Files
 - Medical Records
 - Employee Information

U.S. Patent No. 6039473

Designed to fit inside legal-size file cabinets, this Keyless Security™ bag enables student and medical records to maintain privacy standards, even when a locked file cabinet is opened. By placing paperwork into the Secur-A-File™ and inserting the numbered, one-time-use seal into the chamber, these documents are now secure until seal is broken, revealing at-a-glance proof of tampering.

Size (HxLxW) 9.5"x14"x4.5" (#S92803-00),

Material: Black Arco 600™

Free-Standing Test Collection Bag with Keyless Security™

COMMON USAGE:

- Test collection
- Paper / survey collection
- Document collection for shredding

Bag is equipped with tamper-evident security closure so you can leave it at the front of the room while you supervise students still testing. Bag collapses when not in use for easy storage. Sets up in under 30 seconds. Trapezoid design prevents tipping.

Size (HxLxW) 22"x22"x6" (#15661-Y10)

Material: Nassau Blue Arco 600™

Custom imprinting available upon request.

Rolling, Collapsible Supply Bag with Keyless Security™

COMMON USAGE:

- Emergency medication transport during evacuation
- Paperwork collection for exams, papers, homework
- Convenient rolling bag for teachers who change between different rooms or buildings
- Transport up to 50 lbs of supplies

Heavy-duty wheels navigate multiple surfaces. Available with security slots that are great for collecting and storing documents that need to be shredded or for exam and paper collection.

Size (HxLxW) 15"x19"x15" (not including wheels)

Style: B15622-Y10 or -Y20

Y10 = No Slot, Y20 = With Slot

Material: Nassau Blue Arco 600™

Custom embroidery available upon request.

Collapsible Supply Bag with Arcolock-7® -or- Keyless Security™

COMMON USAGE:

- Transport and storage of:
 - Up to 50 lbs of supplies
 - Paperwork collection for exams, papers, homework

Secured with either our 7-pin, high-security keyed lock, or our patented Keyless Security™ which provides tamper-evident security without the hassle of key management. When not in use, bag can fully collapse which is ideal if storage space is limited. Keyless Security™ style bags are also available with security slots that are great for collecting and storing documents that need to be shredded or for exam and paper collection.

Size (HxLxW) 14"x19"x14"

Style: Arcolock-7® (#B10371-Z10), Keyless Security™ (#B10374-Y10 or -Y23)

Y10 = No Slot, Y23 = With Slot

Material: Arco 600™

Custom sizes, materials, embroidery, windows, and security closures available upon request.

**If no embroidery is specified for lock bag, ID window for 3" x 5" card will be included.*

In-Stock Accessories & Bags

Keyless Security™ Seals

Tamper-evident seals for all Rifkin bags that are fitted with our exclusive, Keyless Security™ closure. Numbered seals are available in red or blue, and bar-coded seals are available in white.

Seals are sold separately for all Keyless Security™ items.

CATALOG ID	Description
S92120-07	Numbered seals--Red
S92120-08	Numbered seals--Blue
S92130-46	Bar coded seals--White

*US Patent No. 7,988,209
*Code 128 barcode

Tamper-Evident Labels

Keyed locks can protect drawers and cabinets ... but sometimes it is necessary to monitor whether protected items (drug cabinets, confidential filing cabinets) have been accessed. Tamper-evident labels will quickly show if entry has occurred. Ideal for use on cabinets, desk drawers, laptops, or most other solid surfaces.

- ArcoID™ self-adhesive labels are easy to apply, easy to remove and leave no residue.
- A "void/open" message will appear if any part of the label is lifted. The hidden message triggers when anyone attempts to peel or remove the label, even if they attempt to compromise the adhesive with a heat source or Freon®.

RESIDUE-FREE

To assure the security of our seals, we do not duplicate numbers.

CATALOG ID	H x L (in.)	Color
S93310-08	1 x 3	Blue
Sold in rolls of 250 only.		

We recommend storing labels in a box or drawer, away from extreme heat, cold, sun, or light. Labels have been tested for more than 1 year on metal, plastic, and glass. For best results on textured surfaces, allow 5-10 minutes for label to bond. Some textured surfaces are not compatible. We would be happy to provide a sample for you to test.

NEED BAGS IN A HURRY?

Rifkin Stock Bags | Normal Shipment in 3 days! | Express Shipment in 24 hours!

We know that sometimes you need bags in a hurry. All of the bags featured in our stock selection are ready to ship in 3 days for normal delivery or in 24 hours if needed. Contact our customer service department if you need expedited shipping on styles or sizes not shown on these pages.

All Stock Bag shipments (Normal or Express) will be via UPS Ground unless otherwise specified.

STOCK

We maintain a limited stock of our more popular items for prompt shipment to our customers. Normal shipment of all Stock Bags listed below will be 3 days from receipt of order. These bags are available from stock only in the colors shown. Stock bags cannot be imprinted or embroidered.

STOCK EXPRESS

For emergency situations, shipment within 24 hours from receipt of order will be arranged. When 24-hour shipment is required, please mark your order "EXPRESS" or tell our Customer Service personnel. There will be a 10% upcharge for this service. (We reserve the right to limit quantities available under this guarantee).

ARCOLOCK-7® SECURITY Keyed Locking Bags

Made exclusively for A. Rifkin Co., our seven-pin tumbler lock mechanism makes our secure transport bags the most reliable on the market when high security is required. All Arcolock-7® bags, except LCX bags, come standard with two keys that are factory sealed in a polyethylene envelope to provide security for their key system until the bags are used. Our lock safety feature prevents the key from being removed while the lock is in the open position, making it impossible to accidentally lock your key inside the bag. Widely used by banks and government agencies, Arcolock-7® bags feature four available keying options*, or an LCX keyless option, with up to 3,000 independent key changes with no interchanges, and up to 2,000 master-key combinations in each series.

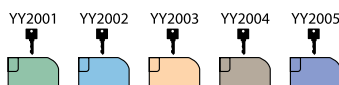

*all bags are keyed differently unless otherwise specified.

U.S. Patent No.
3759073 and 5065602

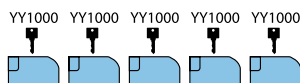

Keyed Differently (included in Sac price)

Keyed differently, each bag has its own key, different from all others, with no interchanges.

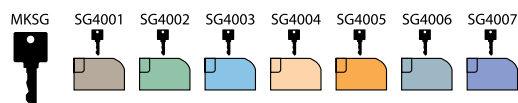

Keyed Alike (included in Sac price)

When Arcolock-7's are keyed alike, a single key pattern ("bitting") allows all key holders to open every bag in the system.

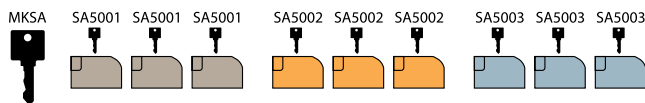

Master-Keyed (Additional cost per Sac)

In master-keyed systems, each bag has its own key which is independent of other locks in the system. However, a single key opens all locks in that system.

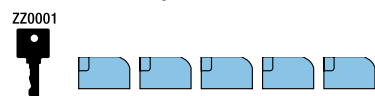

Keyed Alike Sets with Master Key (Additional cost per Sac)

Keyed alike sets are also available with a master key which will open each bag in all sets.

LCX Key System (Additional cost per Sac)

For applications where individual bag users do not receive keys. In "Keyless" LCX systems, bags are issued unlocked with a leather insert strip secured around the plunger head to prevent accidental locking. Once filled, the user simply removes the strip, closes the zipper and depresses the plunger. The bag is then securely locked. This enables a single authorized keyholder to open all bags in the system without any other bag users requiring a key. It also allows any bag to be sent to any user, simplifying the redistribution process. Two keys to operate all locks in the system are provided for each new LCX bag series.

Emergency Key Replacement Service (Additional cost per key)

Replacement keys are forwarded within 48 hours in cases of emergency. Large quantity key orders may take longer. (Please specify key number which is stamped on key and base of lock.)

KEYLESS SECURITY™ Patented Rifkin Exclusive!

Rifkin Keyless Security™ bags use uniquely numbered, single-use seals and a patented zipper chamber to provide documented evidence that the contents of the bag remain secure during storage and transport. All bags equipped with Rifkin's Keyless Security™ option provide clear evidence if the bag's contents have been compromised. The very presence of the Keyless Security™ chamber keeps most would-be "snoops" looking for an easier target.

To Secure The Bag

- Insert all materials to be transported into the Keyless Security™ Bag.
- Fill in date, delivery location, and seal number on provided routing card. Insert card into the clear window, which is accessible only through the interior of the pouch.
- Pull the zipper completely closed. Hold chamber lid at a 45° angle, push back and down until it snaps into place.
- To lock, insert seal's twin arrowheads into the two small rectangular openings and push until they click into place.

U.S. Patent No. 6533335

To Open The Bag

- Verify that the seal number matches the documented number on the routing card. Confirm the seal has not been broken or tampered with during transport.
- To open, utilizing the indent under the red seal, lift seal until it breaks. Then using the second indentation, lift up the chamber lid, unzip bag. Make sure all seal pieces are removed. Remove contents and reuse pouch.

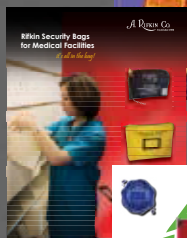

U.S. Patent No. 6533335

A. RIFKIN Co.
Established 1892

POLICIES

Rifkin Bag Products

To qualify for quantity pricing, bags must be identical in material and color and they must have identical imprinting or embroidery. Styles may not be combined for quantity pricing. For multiple colors, color assortment charges may apply. Every effort will be made to ship the exact quantity of a printed order. Standard industry practice for printed products, however, provides a manufacturing allowance of $\pm 3\%$ of the quantity ordered. It is our policy to ship and invoice all finished products to the customer.

Rifkin Stock Bags

We maintain an inventory of only those specific styles, sizes, fabrics and colors listed. All other bags are custom-manufactured to order and may not be returned. When Stock Bags are returned, a 15% re-stocking charge applies.

Rifkin Non-Bag Products

You must be completely satisfied with the items purchased, or we will exchange the item, refund the purchase price or credit your account, as you wish. This policy applies provided the merchandise is returned within 30 days of receipt in re-sale condition. Any merchandise made to special order, and those items printed or engraved to your specifications may not be returned or exchanged.

All prices and specifications in this catalog are subject to change without notice. All orders are subject to the approval of Rifkin and are not binding until accepted by Rifkin. Rifkin reserves the right to refuse any order at any time. All orders are subject to availability of materials and component parts and Rifkin shall not be liable for inability to ship any order(s) due to material or parts shortages.

Our Guarantee

We are dedicated to providing you, our customers, with high quality products. We guarantee that the materials and workmanship used for each of our products will be of excellent quality and that they will serve to the satisfaction of our customers. In 1892, when our family established A. Rifkin Company, they adopted a sound philosophy: To provide good service and a quality product at a fair price. These precepts have continued as our guidelines through the years, and remain so today. We appreciate the confidence in us expressed by the more than 30,000 banks, industrial concerns and other businesses who use our specialized custom-made products. Our company is dedicated to serving their needs...and we welcome every opportunity to do so.
