## ORDER NOW FOR THE NOVEMBER ELECTION!

Reserve your spot in our manufacturing queue now! We serve the entire US, so don't wait until the last minute!

Benefits of ordering early:

- Avoid manufacturing rush fees
- Avoid expedited shipping fees
- Reduce stress by not waiting until the last minute

Most of our items are manufactured to order and not off-the-shelf, which does have a longer lead time than our in-stock items.

If you need us to help custom design something specific to your precinct or machines, call us today to make sure we have time to develop these items with you.

## ★ Keys for all Parties!

**D**ual-lock bags offer the ability to have 2 different key locks present on 1 bag. Whether you require both parties to be present to open the ballot bags, or if you just want that added layer of security, dual-lock bags are the solution.

Bags are constructed using our trusted, built-in Arcolock-7 lock. A built-in vina-hide hood is designed to cover the lock portion of the bag, and can be used in conjunction with a padlock.

The grommets on the hood are aligned with the grommets on the bag to accommodate the padlock\* for use as the second lock and key

So whether you need both parties to have keys, or just the safety net of having an additional witness when opening the bags, dual-locking bags are the answer.

*\*padlocks not included*

## ★ Limited Edition

**G**et the sticker that every voter will want this year! More special than the typical “I Voted” sticker, for 2024, we have a sticker designed specifically for the Presidential Election.

Stickers are 2” in diameter and are sold in rolls of 1,000.

Once we get close to election day, we will not be reordering more of these stickers, so don’t wait til the last minute to order!

# ★ Latest Product Developments

**B**ags for specific pieces of equipment or specific uses sometimes don't even exist until we are asked to help provide a solution. We have an in-house engineer, art department, and a team of experienced people who are eager to help design a custom solution for you.

All of the products below have been developed within the last several weeks for election counties, and some of them are so new they aren't even in our 2024 catalog.

If you have a unique problem for catching, collecting, transporting, and storing ballots or election equipment/machines - call us today! We are eager to work with you to find the best solution for you!
